DETAILED ACTION

Election/Restrictions

Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 2 and 5, directed to a non-elected species, is no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 8-12 and 15, directed to a non-elected species, remain withdrawn from consideration.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

This application is in condition for allowance except for the presence of claims 8-12 directed to the species non-elected without traverse.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kiewit on May 25, 2006.

The changes are as follows:

-- Cancel claims 8-12 --

Allowable Subject Matter

Claims 1-7 and 13-16 are allowed.

The following is an examiner's statement of reasons for allowance: While it is known in the prior art to have a building with a precast flanged wall portions and buildings with cast-in situ slabs it is not known in the art to have a portion of a building with a flanged wall portion having a vertical portion and a horizontal flange with a rabbeted distal end and reinforcing extending from the rabbeted end, where a form plate is supported against a lower surface of the rabbeted end and concrete is poured onto the form plate to make a slab connecting two opposing wall portions. It is also not known in the art have a corner portion of a building with two precast flanged wall members having vertical portions and a horizontal flange having a beveled end .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
